## About Network Lighting Controls

Your school depends on effective lighting and Consumers Energy is committed to providing the right tools. A Network Lighting Controls (NLC) system consists of individually controlled lights allowing for programming, zone control, measuring and monitoring. This system is the perfect next step for getting more savings out of your lighting upgrade.

### Never Waste a Watt:

**Step 1:** Install LED lighting in your facility.  
**Step 2:** Harness that lighting power with Network Lighting Controls (NLC).

### Benefits:

- Exceed regulatory and code compliance
- Improve productivity, comfort and safety
- Incorporate lighting design best practice
- Reduce maintenance
- Reduce energy costs
