

**Manufacturers:  
Save thousands in energy bill  
and maintenance costs every year.**

**Start your energy efficiency project with  
a 10% bonus\*, from May 1 - Nov. 1, 2022.  
Talk to your Energy Advisor to learn more.**

\*Bonus is calculated on the electric measure subtotal amount.

***Consumers Energy***

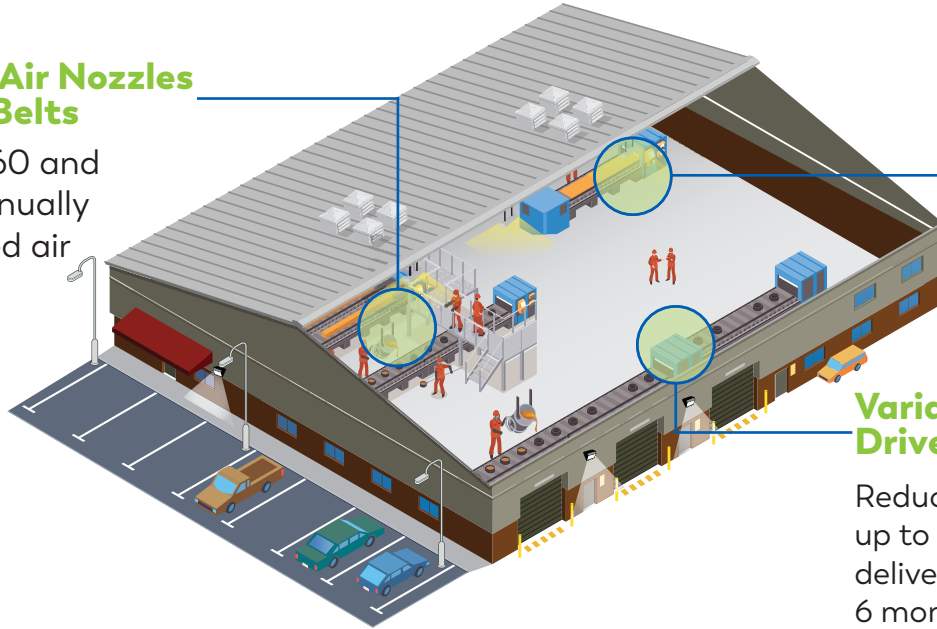

*Count on Us<sup>®</sup>*

**Manufacturers can get a rebate on more than 450 energy efficient products and services. Save even more when you upload this voucher with your electric project application to receive a 10% bonus by Nov. 1, 2022.**

### **Compressed Air Nozzles & Cogged V-Belts**

Save up to \$360 and 4,500 kWh annually per compressed air nozzle.<sup>1</sup>

Cogged v-belts run cooler, last longer and are more efficient than standard v-belts.<sup>2</sup>

### **Lighting**

Replacing one fluorescent tube light (T8) with an LED can save about \$15.77/year on your energy bill.<sup>3</sup>

### **Variable Frequency Drives (VFD)**

Reduce electric motor use by up to 90%, extend its life and deliver a payback in as little as 6 months.<sup>4</sup>
