

Back to school savings start early with a 22% bonus

Complete an energy efficiency project and apply for your rebate by Nov. 1, 2022 to get a 22% bonus*

Consumers Energy

Count on Us®

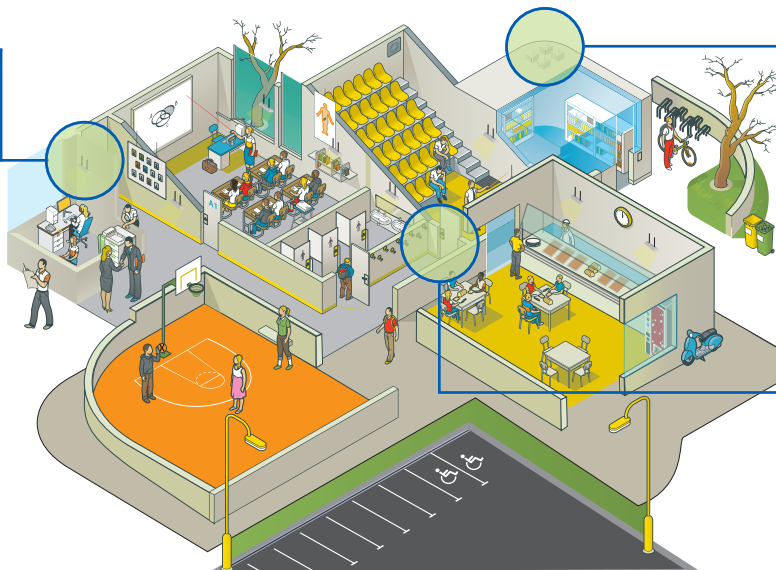

*Bonus is calculated on the measure subtotal amount.

Schools can get a rebate on more than 450 energy efficient products and services. Save even more from May 1 - Nov. 1, 2022 with a 22% bonus. Talk to your Energy Advisor for all the details.

Lighting

Replacing one fluorescent tube light (T8) with an LED can save about \$15.77/year on your energy bill.¹

HVAC

Research shows switching to an energy efficient HVAC system improves the indoor air quality and reduces illnesses by 40%.²

Variable Frequency Drives (VFD)

Reduce electric motor use by up to 90%, extend its life and deliver a payback in as little as 6 months.³
