

2023 Natural Gas Express Application

Consumers Energy
Business Energy Efficiency Programs

Consumers Energy

Count on Us®

About this Application

The Consumers Energy express application is designed for commercial and industrial customers replacing inefficient equipment with new energy-efficient technologies. This application is for the most commonly used prescriptive incentives. If your equipment is not listed on this application, it may still be eligible for an incentive on our standard incentive application.

Application Instructions

1. Is your project eligible?

- You must be a current natural gas customer of Consumers Energy on an eligible commercial or industrial rate.
- Projects applying for the Buy Michigan Bonus must use the standard incentive application.
- Equipment must be installed and fully operational for at least 12 months prior to receiving a tune-up incentive.

2. Is the equipment you intend to install eligible?

- Products listed on this form are eligible for prescriptive incentives.
- Other products not listed here may be eligible for an incentive using the standard incentive application.
- Check the product specifications in the Consumers Energy incentive catalog to ensure your products qualify for an incentive.

3. Installation and incentive requirements

For furnaces:

- Purchase and install the products according to the manufacturer's recommendations and the specifications in the Consumers Energy incentive catalog.

For tune-ups:

- The service provider must perform before and after combustion efficiency tests for High Fire, provide original "after" combustion analysis tape and provide a copy of the contractor's tune-up checklist.

4. Submit your incentive application

- Return the following within 60 days of project completion:
 - Signed copy of application.
 - W-9 for payee.
 - Copy of invoice (must be itemized and clearly state the invoice number and date; vendor name and address; customer name and address; itemized list of equipment, including manufacturer, model number, price and quantity; and total cost of the tune-up and maintenance performed).
 - Copy of the "after" combustion analysis tape (tune-ups only).
 - Copy of the contractor's tune-up checklist (tune-ups only).
 - Manufacturer Specifications (new furnaces only)
- Send your application to Consumers Energy via one of the following methods:

Email: ConsumersEnergyBusinessSolutions@cmsenergy.com

Fax: 877-607-0738 or 517-381-0189

Mail: Consumers Energy Business Energy Efficiency Programs, PO Box 1040, Okemos, MI 48805

5. Receive your incentive check

- Please allow six to eight weeks to receive your incentive check. Incentives cannot be processed for payment until the complete application and all required documentation is received and approved.

Combustion Efficiency Percentage

Fan Section

- ☐ Check Filters. Clean or replace as necessary
- ☐ Adjust belt tension, wear and replace if necessary
- ☐ Inspect bearing and lubricate if needed
- ☐ Inspect sheaves for alignment or wear
- ☐ Check blower motor
- ☐ Check fan blades/housing. Clean or repair if necessary

Electrical

- ☐ Check voltage
- ☐ Check contractor/relays
- ☐ Inspect circuit boards
- ☐ Amp check blow motor
- ☐ Check wiring/connections

Heating Section

- ☐ Check combustion efficiency and optimize
- ☐ Check O₂ and CO₂ levels and optimize Check heat exchanger/flue
- ☐ Check pilot assembly/flame rod
- ☐ Check/clean burners
- ☐ Verify operating/safety controls
- ☐ Check inducer
- ☐ Provide date- and time-stamped documentation of the “after” combustion analysis and efficiency

Miscellaneous Equipment

- ☐ Check for proper damper operation (if applicable)
- ☐ Visually inspect insulation for moisture accumulation
- ☐ Visually inspect ductwork
- ☐ Check safety devices per manufacturer
